

# 2009 API GOLF TOURNAMENT OCTOBER 12TH

We are celebrating our 30<sup>th</sup> annual API Golf Tournament this year. We have enjoyed great success with your continued support. The API Golf Tournament has always been a prestigious golf tournament that continually creates a memorable experience. This year we would like to offer something in addition to our normal 4-man scramble. We are requesting your feedback of the possibility on doing a Pro-Am on the Island Course.

First of all, here are the details. We would have a four man team with a Pro playing a scramble format, but the Pro would be playing his own ball after the drive/first shot. The estimated cost would be \$1200 per team for the Pro-Am.

We know times are economically challenging, but we would like to introduce a new format to enhance the API Golf Tournament and provide some excitement. Please give this some consideration and respond ASAP to me at [anthony.hooper@bjsservices.com](mailto:anthony.hooper@bjsservices.com) so a decision can be made regarding the Pro-Am.

Thank you for your past support and we look forward to seeing you this fall.

Sincerely,

Anthony Hooper  
API Golf Committee Chairman
