**GUEST SPEAKER: Dr. Randolph G. Phillips**  
**Vice President - Reliability, Quality & Product Service - Baker Hughes**  
**Driving Product Reliability and Service Quality in the Oil Services**

Dr. Randolph Phillips was named Vice President - Reliability, Quality & Product Service, on May 4, 2009. Previously he was VP of Reliability with INTEQ since September 2006. Dr. Phillips' career spans 30 years in design and research for control systems, with a focus on highly reliable system designs. In 1980, he began his career with a 3-year stint at Bell Laboratories in Holmdel, NJ in the packet-switched computer communications research group. From 1984 to 2006, Dr. Phillips held positions of increasing responsibility with various divisions of General Electric: General Electric Research & Development Center - Robotic Controls Research Group in Schenectady, NY; Unit Manager for General Electric Aerospace in King of Prussia, PA; GE Aircraft Engine and flight control systems in Cincinnati, Ohio and Schenectady, NY; Reliability Manager for GE Transportation Systems in Erie, PA; General Manager of Reliability at GE Energy in Greenville, SC. He holds a Master Black Belt in 6 Sigma Quality Systems. Dr. Phillips earned his bachelor's of science degree in electrical engineering from Villanova University, and master's and doctor of philosophy degrees in electrical engineering from the University of Illinois at Urbana Champaign. He was also previously an Adjunct Professor in the Graduate EE Department of Villanova University.
